Aim and Scope
The Bulletin of Tokyo Dental College is principally for the publication of original contributions to multidisciplinary research in dentistry. It encompasses the fields of both basic and clinical dentistry, dental education, social aspects of dentistry, and general medicine where such is potentially related to patients at dental clinics. Original articles, review articles, short communications, clinical reports, case reports, or dental education-related reports will be accepted. All submissions are subject to peer review. This periodical is issued quarterly, in February, May, August and November.
