

東京歯科大学 私立大学研究ブランディング事業
顎骨疾患の集学的研究拠点形成

Multidisciplinary Research Center for Jaw Disease (MRCJD)

A MEXT Private University Research Branding Project

Asian Rising Sun Symposium at Tokyo Dental College 2019

2019.6.29 (Sat) 13:00 - 17:30

会場：東京歯科大学水道橋校舎西棟ラウンジ

Keynote Lecture 15:20-16:00

■ **Tadahiro Imura** (Hokkaido University)

HIV-mediated cellular signaling and bone pathophysiology

Speakers

■ **Keiko Yamashita** (Tokyo Dental College)

Treponema denticola TDE_0344, an AbrB-like transcriptional regulator, is involved in switching of the flagellar motor

■ **Eun Jo Du** (Sungkyunkwan University)

Analysis of phototoxin taste correlates nucleophilicity to Type-1 phototoxicity

■ **Ming-Heng Wu** (Taipei Medical University)

Normalizing tumor microenvironment for cancer treatment

■ **Chena Lee** (Yonsei University)

Outcomes of oral squamous cell carcinoma with perineural invasion in imaging

■ **Suen Long Kiu** (Novus Life Sciences Limited)

Chemosensory perception in human brain

-The interaction of taste and smell as a simplified flavour model-

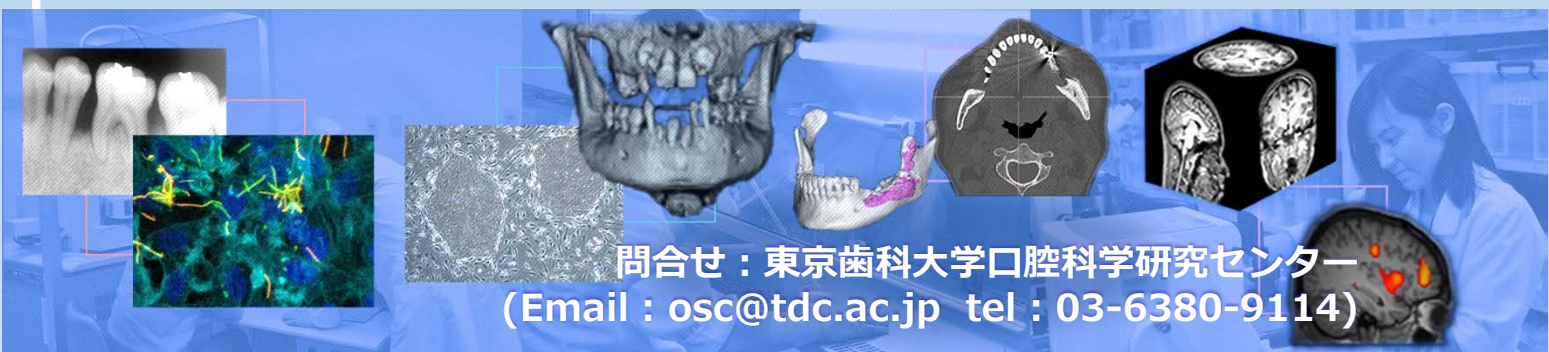

■ **Zhang Jianyun** (Peking University)

Odontogenic keratocyst

- The role of PTCH1 and Hedgehog signaling in its pathogenesis

■ **Shoko Onodera** (Tokyo Dental College)

Multi-layered mutation in hedgehog-related gene in patient with Gorlin syndrome
