

学位論文題名 (2021 年度)

	学位記番号	氏名	学位論文題名
1	2378 号 (甲 1544 号)	橋 本 千 明	Auricular cartilage configuration: A histological study using late-stage human fetuses and adult cadavers
2	2379 号 (甲 1545 号)	中 根 咲	Systemic administration of cytotoxic T lymphocyte-associated antigen 4 (CTLA-4)-Ig abrogates alveolar bone resorption in induced periodontitis through inhibition of osteoclast differentiation and activation: An experimental investigation
3	2380 号 (甲 1546 号)	中 村 ゆり子	Development of a targeted gene panel for the diagnosis of Gorlin syndrome
4	2381 号 (甲 1547 号)	村 上 侑	Healing of experimental periodontal defects following treatment with fibroblast growth factor-2 and deproteinized bovine bone mineral
5	2382 号 (甲 1548 号)	平 野 瑞 穂	Sintering distortion of monolithic zirconia in 4-unit fixed partial denture: Effect of layered structure and vertical milling area
6	2383 号 (甲 1549 号)	鈴 木 穂	Microstructural analysis of accessory canals in the furcation area of the mandibular first molar using micro-computed tomography
7	2384 号 (甲 1550 号)	中 里 晴 香	Development of optimal odontoblast culture method -FGFs, Wnt, Hedgehog, Notch pathway and immediate early gene are important for odontoblast phenotype maintenance -
8	2385 号 (甲 1551 号)	Bunpout Lekroengsin	Relationship between changes in condylar morphology and masticatory muscle volume after skeletal class II surgery
9	2386 号 (甲 1552 号)	筒 井 新	Influence of clenching intensity with mouthguard on masseter muscle oxygen dynamics and fatigue
10	2387 号 (甲 1553 号)	伊 藤 慎一郎	Pathological differences in the bone healing processes between tooth extraction socket and femoral bone injury
11	2388 号 (甲 1554 号)	國 奥 有 希	Intracellular cAMP signaling pathway via G _s protein-coupled receptor activation in rat trigeminal ganglion cells
12	2389 号 (甲 1555 号)	齋 藤 菜 月	G _{α_s} -coupled calcitonin gene-related peptide receptor signaling axis mediates intercellular communication from trigeminal ganglion neurons to odontoblasts as axon reflex
13	2390 号 (甲 1556 号)	添 田 萌	Single-nucleotide polymorphisms of the <i>SLC17A9</i> and <i>P2RY12</i> genes are significantly associated with phantom tooth pain
14	2391 号 (甲 1557 号)	北 山 え り	Functional expression of IP, 5-HT ₄ , D ₁ , A _{2A} and VIP receptors in human odontoblast cell line

	学位記番号	氏名	学位論文題名
15	2392 号 (甲 1558 号)	神 保 泰 弘	Effects of remifentanil on hemodynamic changes and oral tissue perfusion during electrical stimulation of the mental nerve in anesthetized rabbits
16	2393 号 (甲 1559 号)	南 里 綾 乃	Effect of distance between abutment teeth and presence of intermediate abutment tooth in fixed dental prosthesis on optical impression accuracy
17	2394 号 (甲 1560 号)	菊 池 布 恵	Three-dimensional observation of the furcation area during multi-rooted tooth formation in rat
18	2395 号 (甲 1561 号)	原 田 惇 朗	Irradiation of low temperature atmospheric plasma to Ti-implant is involved in earlier wound healing of peri-implant connective tissue in rats
19	2396 号 (甲 1562 号)	稲 田 潤一郎	Two opposite effects of desmoglein 3 on the growth of oral squamous cell carcinoma between anchorage -dependent and -independent conditions
20	2397 号 (甲 1563 号)	水 野 周 平	Effect of correction of bilateral differences in masseter muscle functional pressure on the mandible of growing rats
21	2398 号 (甲 1564 号)	松 崎 勇 佑	RIOK2 contributes to cell growth and protein synthesis in human oral squamous cell carcinoma
22	2399 号 (甲 1565 号)	角 田 航	Regeneration of sensory nerve branches in extraction socket and surrounding alveolar bone in rat ~ Immunohistochemical observation of the axon and myelin sheath changes~
23	2400 号 (甲 1566 号)	西 村 達 郎	The effects of orthodontic anchor screw inserted into the femur of growth-phase or mature rats -Osteoid formation, bone mineral density, collagen fiber bundles, biological apatite crystal orientation-
24	2401 号 (甲 1567 号)	太 田 雄一郎	Comparison of the effects of various oral appliances in experimental grinding and clenching
25	2402 号 (甲 1568 号)	丹 沢 聖 子	Immunohistochemical observation on the distribution and morphological changes of GAP-43 positive structures in the formation of experimental apical periodontitis of rat molars
26	2403 号 (甲 1569 号)	佐 竹 奎 亮	Quercetin prevents the development of 2,3,7,8-tetrachlorodibenzo-p-dioxin-induced cleft palate in mice by suppressing CYP1A1 via aryl hydrocarbon receptor
27	2404 号 (甲 1570 号)	太 田 大 聖	Do adequate dental treatment and oral health guidance improve an infant oral microbiome at high risk of severe dental caries?

	学位記番号	氏名	学位論文題名
28	2405号 (甲1571号)	岡野日奈	Effects of Inner Structures Added by Selective Laser Sintering on the Mechanical Properties of Co-Cr Alloy.
29	2406号 (甲1572号)	阪上隆洋	Improving light-cured intermediate resin for Hard & Space mouthguard using glass fiber
30	2407号 (甲1573号)	加藤栄助	Investigation of Component Fraction According to Signal Decay Patterns Using Cluster Analysis of Multi-b Value Diffusion-weighted Images for Inferior Alveolar Nerve Damage
31	2408号 (甲1574号)	清水廷浩	A new proposal for improving the accuracy of intraoral scanning for partially edentulous residual ridge.
